

北方工业大学  
North China University of Technology

## School Introduction

North China University of Technology (NCUT), located on the western side of Beijing, is a multi-disciplinary university that combines the natural sciences and engineering with liberal arts, economics, management and law. Currently, there are almost 600 overseas students from over 30 different countries around the world who are studying in Chinese language program, bachelor degree programs and master degree programs.

# Four-week programs of the Summer School

## Introduction

### Four-week programs of the Summer School(July7,2014—August1,2014)

(92 periods) are designed both for those who intend to start learning Chinese and for those who wish to improve their Chinese language skills. The four-week summer school programs are vast multi component educational courses with integrated classes and field trainings supported by a diverse entertaining program, introducing the Chinese history and culture. All the participants will receive the NCUT Chinese Language Certificate when the four week's programs finished.

## Program Features

1

Classes are held in small groups (10-15 students) based on language competence.

2

We will arrange a language tutor to the international students who participating in our short-term project

3

We prepared a variety of Chinese cultural programs, including calligraphy, paper cutting, opera, acrobatics, etc.

4

We prepared a weekend visitings to the Forbidden City, the Great Wall and the Summer Palace and so on.
